

Teradata Virtual User Group Sessions 2025

Virtual User Groups (VUGs) offer interactive 60-minute sessions with 35-40 minutes of content followed by a Q&A, with recordings available afterwards. VUGs provide engaging content for diverse roles, including newcomers to Teradata. Open to all Teradata customers.

Join us in the upcoming Teradata VUGs - Q1 2025 to enhance your skills and connect with the community!

February Virtual User Group

Topic: Getting Started with Teradata for New Users

Audience: All

EMEA/AMS Session: February 19, 2025, 04:00 PM CET

APJ/AUS Session: February 19, 2025, 02:00 PM AEDT

Pick your slots for the live sessions today, and share this email with your colleagues.

Webinar: Accelerate AI Value with Teradata and Google Cloud

As a data professional, you want to build solutions that help your company

and customers.

There is significant value in unstructured data stored in formats such as text, audio, and more, which you can leverage to achieve this goal. Advanced Large Language Models (LLMs), like Google's Gemini, can simplify the process of introducing structure into unstructured data, enabling individuals and organizations to derive insights that better serve their customers.

Join Janeth Graziani, Developer Advocate, Teradata and Merlin Yamssi, Lead Solutions Consultant AI/ML CoE, Google Cloud, as they explore, demo, and discuss how data analysts, engineers, and scientists, can leverage Teradata VantageCloud and Google Cloud to accelerate your AI innovation from development to production.

Janeth and Merlin are excited to share how you can:

- Get faster results from your AI/ML initiatives by quickly building and training ML models with Vertex AI and the powerful in-database analytics functions of ClearScape Analytics
- Easily build and deploy powerful gen AI solutions with Teradata VantageCloud Lake, Vertex AI, and Gemini
- Transform customer complaint management through advanced generative AI for precise and automated classification. Janeth will give a complaints classification demo which leverages Teradata Vantage and Google Gemini.

Kate Russell, technology journalist, will moderate this webinar and make sure your questions are addressed by our experts.

Date: Wednesday, 15 January, 2025
7:30 a.m. PT | 4:30 p.m. CET

Live Demo: Modernizing Data Protection and Compliance with Poly-Anonymization

Managing sensitive data and ensuring privacy, security and compliance is challenging. It often limits the use of sensitive data in analytics and in non-production environments. With Teradata and Anonomatic, you can de-identify personally identifiable information (PII) and protected health information (PHI) allowing you to share and analyze data without the risk

of exposing sensitive data, ensuring compliance and privacy regulations.

Join our live demo on Wednesday, January 22, 2025 at 8:00 a.m. PT and you'll:

- Learn how Poly-Anonymizing PII meets industry data security and privacy regulations
- Visualize the multilayered security model of PII Vault
- Experience setting up a PII Vault in 15 minutes
- Understand how to mask sensitive production data in non-production environments
- Visualize rapid and selective re-identification of data based on use case and authorization

Presenters: Anthony Cicero, Senior Staff Security Architect & Jay Irwin, Chief Security Officer

Date: Wednesday, January 22, 2025
8 a.m. PT | 11 a.m. ET | 3 p.m. GMT | 4 p.m. BST (UK)

Teradata Certification/Accreditation Program Announcement 2025

To align with market trends and technological advancements and to support our stakeholders with the most up-to-date content, Teradata will transition to a comprehensive Accreditation Program focused on job roles, Vantage, and AI.

The current [Teradata Certification](#) program will offer exams through June 23, 2025. All active Teradata certifications will continue to be valid and supported through June 30, 2027. You can [register](#) for exams and find [Teradata Certification Transition FAQs](#) as well.

Launching in 2025, the new [Teradata Accreditation Program](#) will cover Vantage Enterprise, VantageCloud Lake, ClearScape Analytics, Teradata job roles, and AI, including free web-based training, assessments, and digital badging.

Teradata will continue to provide education and upskilling opportunities for our partners, customers, and employees to maximize the use of Teradata

technology.

Be sure to take full advantage of all available exams and complimentary training. Register today!

- [Vantage Certified Associate Exam 2.4 | Teradata Vantage Certification](#)
- [VantageCloud Lake Associate Exam 2.0 | Teradata Vantage Certification](#)
- [Vantage Administration Exam | Teradata Vantage Certification](#)
- [Vantage Data Engineering Exam | Teradata Certification](#)

Feel free to [reach out](#) with any questions.

Hands-On Virtual Classes in 2025

Find a class in your time zone, and check back for added sessions:

[View Public Schedule →](#)

* Virtual Instructor-Led classes are live with hands-on labs and have an associated cost.

For scheduling, pricing, or to inquire about a different class, please contact customer.education@teradata.com
